YOU HAVE A VOICE IN AIR POLLUTION CONTROL IN ARIZONA

The Arizona Department of Environmental Quality (ADEQ) proposes to issue Air Quality Control Significant Permit Revision No. 58409 to Air Quality Operating Permit No. 53592 to Freeport-McMoRan Miami Inc. The permit revision authorizes various upgrades to the emissions control strategy for the Miami smelter facility to assist in complying with the 1-hour sulfur dioxide ambient air quality standard. Additionally, the revision will authorize a capacity enhancement for the smelter to 1,000,000 tons of new metal bearing material per year. The facility is located at 5701 New Street, Miami, Gila County, Arizona 85532. This revision will result in a significant reduction in emissions of sulfur dioxide, and increases in emissions of nitrogen oxides and carbon monoxide below the significance levels established in state law. The mailing address facility is P. O. Box 4444, Claypool, Arizona 85532. The facility is subject to the requirements of the Federal Clean Air Act, Code of Federal Regulations, Arizona Revised Statute 49-426, and the Arizona Administrative Code, Title 18, Chapter 2. The facility emits the following air contaminants: particulate matter, nitrogen oxides, sulfur dioxide, volatile organic compounds, carbon monoxide and hazardous air pollutants.

You have an opportunity to submit written comments on the permit revision or make oral comments on the permit revision at a public hearing. ADEQ will be holding a public hearing on Thursday, May 22, 2014, at 6:00 p.m. at the Miami Senior Center, 518 Live Oak Street, Miami, AZ 85539. The written comment shall state the name and mailing address of the person, shall be signed by the person, their agent or attorney, and shall clearly set forth reasons why the permit revision should or should not be issued.
